INFORMATION NOTICE

A post-sale noncompetitive offer was properly filed during the first business day following the oral auction for parcel NV-11-09-009, but was inadvertently omitted from the drawing held on September 16, 2011. Notice is hereby given that on September 21, 2011, at 2:30 p.m., the Bureau of Land Management, Nevada State Office, will conduct a public drawing in the State Office Information Access Center to determine priority for the above-referenced parcel offered for lease at the September 13, 2011, competitive oil and gas lease sale.

On September 20, 2011, it was determined that a noncompetitive oil and gas lease offer that was timely received on September 14, 2011, the day following the sale, and under the regulations at 43 CFR 3110.2(a), was omitted. A public drawing which includes the omitted offer must be held in accordance with 43 CFR 1822.18 in order to determine priority for issuance of noncompetitive leases. On September 16, 2011, John L. Obourn Jr had been selected priority for lease issuance for parcel NV-11-09-009.

Procedures for the reselection process are as follows: A new drawing shall consist of the omitted offer and the number of blank offers equal to the number of offers which were included in the first selection. There were five offers included in the first selection. If an omitted offer is not selected, the results of the original drawing shall stand. However, if an omitted offer is selected, the selected omitted offer shall displace the offer which was determined to have priority in the September 16, 2011, drawing.

For official record purposes, a copy of this notice is being files in the official case file of the involved offer NVN-90278, and a copy of this notice is hereby posted to the Nevada State Office, Information Access Center Bulletin Board and webpage.
